## Trading Standards improving compliance and tackling crime

### The Impacts and Outcomes of Local Trading Standards Services in Wales in 2024/25

The Association of Chief Trading Standards Officers (ACTSO) created the Impacts and Outcomes Framework in 2018/19 to provide national data for England and Wales on work done by local authority Trading Standards Services. This is the fourth report for Wales, and this document contains a summary of the highlights of work done in 2024/25.

This year, across all areas of work, the risks associated with the cost-of-living crisis on consumers and businesses is apparent. The need for effective business advice and a level playing field for legitimate businesses is going to be crucial to keep them afloat in difficult times. Risks to consumers around the safety of cheap or illicit goods and false claims relating to prices, costs and energy efficiency are growing and the impact of losing money to scammers is bigger than ever.

In 2024/25, the Trading Standards service in Wales had 294 full-time equivalent staff employed, of whom 267 were operational. They achieved the following:

- Prevented over £43 million of detriment to consumers.
- Removed over 21,800 unsafe or non-compliant goods and over 28,000 illegal vaping products from the market;
- Provided nearly 1,700 hours of advice to businesses through primary authority partnerships
